Comenius is part of the European Community's Lifelong Learning Programme, which was launched in 2007. The Lifelong Learning Programme seeks, among other goals, to promote cooperation and mobility, and to strengthen the European dimension in education. It seeks to develop knowledge and understanding among young people and education staff of the diversity of European cultures and languages, and the value of the diversity. And it aims to help young to acquire basic life skills and competences for their personal development, for future employment and for active European citizenship.

Last year our teacher Virginija Ogintienė involved our school to this Lifelong Learning Programme. The project „Ceremonies and Celebrities Identify and Unify Us“ written together with Turkish Rekabet Kurumu Cumhuriyet Fen Lisesi, Romanian Colegiul Technic „Traian Vuia“, Italian Liceo Scientifico „G. Pellicchia“ teachers had got a foundation. Students have the opportunity to go to these countries, get acquainted not only with the environment but also to school life and participate in festivals. The project's main objectives are:

- ✓ Different cultures development.
- ✓ Opportunities to observe and participate different culture's representatives in various national events formation.
- ✓ To improve students' social and language skills.
- ✓ To learn key words in other languages and to improve communication skills speaking a common language.
- ✓ Show tolerance for other cultures, their representatives, etc.
